

StarAlu™

Stainless Steel Screws for Aluminium Profile Systems

Specifying the right fasteners is not just about securing your product; it's about securing your reputation too.

StarAlu – A Cost effective, stainless steel range of fixings, recommended by all leading aluminium systems manufacturers for aluminium window and door applications.

► ***Guaranteed*** – 10 Year Warranty

Fabricators can be confident of corrosion free stainless steel screws.

► ***Durability*** – Austenitic 300 series stainless steel

Over the total life of a project, stainless is often the best value option. By expanding the lifetime of a project, stainless steel makes for a “green” choice too.

► ***Low maintenance*** – Corrosion resistance

Less likely to cause failures and incur expensive call backs.

► ***Range*** – For varied manufacturing

A wide range of head, thread and point styles, including self drilling Austenitic Stainless Steel options are available.

► ***Standards***

Austenitic stainless steel fixings are the preferred material for aluminium framing systems as stated in BS 4873:2009

► ***Quality***

Rapierstar are committed to quality and operate ISO 9001:2008 quality management systems with stainless steel fasteners specified to BS, DIN and ISO standards.

NB Other screws and recess configurations are available. • The use of Martensitic series Stainless Steel fasteners with aluminium is not recommended due to the risk of dissimilar metal corrosion. Rapiertstar recommend that specifiers and fabricators check the suitability of any specification before usage. • All dimensions are in mm.
